ISO/IEC JTC 1/SC 27/WG 3 thanks FIRST for their liaison statement which we received in time for our meeting at Melaka, Malaysia and also for the valuable comments from FIRST in regard to the 4th working draft of ISO/IEC 29147 Responsible vulnerability disclosure project.

WG 3 notes the concerns expressed by FIRST regarding the progress of this standard. Based on the received contributions and expert discussions, the WG3 has decided to progress the project to CD at the Melaka meeting.

WG 3 notes the concerns expressed by FIRST regarding the stability of this standard. The editor has agreed to circulate an interim draft to the working group to verify that the next draft is structurally sound and stable, and that the editor has correctly implemented the Disposition of Comments as agreed to by the editing group at this meeting before May 10, 2010.

All of the FIRST comments have now been addressed during this editing session. WG 3 would welcome any further contributions of comments from FIRST during the course of the review process.
